

# Incentive Application

## 2017 On-road Vehicle Data Collection Incentive Program

Complete one application per EPA certified on-road vehicle purchased or converted to propane. Please keep a copy of each application for your files. Purchaser is the end user of the equipment and should be a customer of a propane marketer doing business in Wisconsin. Equipment must be for use in Wisconsin. Upon approval of this application, the purchaser must complete an initial survey. Incentives will be paid after completion of the initial survey. More information available in the program guidelines.

Tax ID #

## DATA COLLECTION ACKNOWLEDGEMENT

The Purchaser, Propane Marketer, and/or Conversion Company agree to the following:

- The participating Marketer or Conversion Company has educated the Purchaser about the care, maintenance and operation of the equipment. • The Purchaser agrees to follow the equipment manufacturer's recommendation for maintenance of the propane engine or conversion equipment.
- The Purchaser agrees that the equipment for which an incentive is provided must remain in use in the service area no less than one year from the date the equipment is purchased.
- **The Purchaser agrees to complete an initial survey and final survey for each vehicle receiving an incentive. The incentive will not be paid until the initial survey is completed. After six months of vehicle use, WiPERC will contact the recipient to complete the final survey. Final surveys are detailed and ask for specific performance data. A sample data log is available upon request. WiPERC will provide the recipient with the survey links.**
- This incentive cannot be used in conjunction with any other PERC incentive.
- The data will be used by the propane industry for but not limited to the following: industry reports, articles, and case studies.

*I agree to the terms listed in this application and outlined in the guidelines.*
